## **Building Your Farm Safety Team**

Are you constantly nagging your farm workers about safety? Feel like a broken record? You can build a culture of safety on your farm with the right conversations.

Talk with your employees about expectations, hold regular safety meetings, and give your workers the feedback and coaching they need to work safely.

If you include your workers in the conversation, everyone can be a safety champion.

So this Ag Safety Week, Let's Talk About It! For more information on how to build your farm safety team, visit agsafetyweek.ca.
